[What Is The Absolute Best And Most Thorough Antivirus And Malware For Mac 2018](#)

You've protected your own PCs and laptops, but did you make sure to install antivirus protection on your child's laptop? If not, your kid could pick up more than a head cold at school.. Viruses, Trojans, ransomware, or what-have-you, any kind of malware does well in a network populated by youths who aren't thinking about security.

We've tested and rated more than 40 antivirus tools so you can pick the right one to protect you and your family from the evil side of the internet.. Summer is winding down Before you know it, kids will head off to school and come back with homework, notes from the teachers, andâ€¦malware? Quite possibly.
